Material Safety Data Sheet
Sodium azide, 99%

Section 1 - Chemical Product and Company Identification

MSDS Name: Sodium azide, 99%
Catalog Numbers: AC190380000, AC190380050, AC190381000, AC190385000
Synonyms: Sodium salt of hydrazoic acid; Smite; Azium.

Plant Identification:
Corvine Chemicals & Pharmaceuticals Ltd.
Plot#135-E, Kolhar IDA BIDAR-585403, Karnataka, INDIA. Phone: 08482-232204, 232297.
Fax: 08482-232204.
For information: 040-23354928, 23354931.

Corvine Chemicals & Pharmaceuticals Ltd.
Plot#735, Venkateshwara Hills, Banjara Hills, HYDERABAD-34, INDIA. Phone: 040-23354928, 23354931. Fax: 040-23354929.
For information: 040-23354928, 23354931.

Section 3 - Hazards Identification

EMERGENCY OVERVIEW

Appearance: colorless to white crystals. May cause cardiac disturbances. Danger! Causes eye and skin irritation. Heat sensitive. Causes respiratory tract irritation. May be fatal if swallowed, absorbed through the skin or inhaled. Dangerous for the environment. Contact with acids liberates very toxic and explosive gas, hydrazoic acid vapor. Heating may cause an explosion. Reacts with many heavy metals to form explosive compounds. Forms hydrazoic acid in water which volatilizes readily at 99°F. Hydrazoic acid is a colorless, volatile, highly toxic and highly explosive liquid with a characteristic odor, which has been described as sickening.

Target Organs: Central nervous system, lungs, cardiovascular system, eyes, skin.

Potential Health Effects

Eye: Causes eye irritation. Contact with dust or vapor may cause systemic toxic effects.
Skin: Causes skin irritation. May be fatal if absorbed through the skin. If absorbed, causes symptoms similar to those of ingestion.
Ingestion: May be fatal if swallowed. Causes gastrointestinal irritation with nausea, vomiting and diarrhea. Sodium azide may cause hypotension (abnormally low blood pressure), tachycardia (rapid heart rate), tachypnea (quick, shallow breathing), hypothermia (low body temperature), convulsions and severe headache.
Inhalation: May be fatal if inhaled. Dust is irritating to the respiratory tract. May cause effects similar to those described for ingestion. Rapidly absorbed. The vapor of hydrazoic acid may be present where sodium azide is handled. Symptoms of acute exposure to hydrazoic acid include eye irritation, headache, dramatic decrease in blood pressure, weakness, pulmonary edema, and collapse.
Chronic: Chronic inhalation and ingestion may cause effects similar to those of acute inhalation and ingestion.
Section 4 - First Aid Measures

**Eyes:** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical aid.

**Skin:** In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Get medical aid immediately. Wash clothing before reuse.

**Inhalation:** Poison material. If inhaled, get medical aid immediately. Remove victim to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen.

**Notes to Physician:** Treat symptomatically and supportively.

Section 5 - Fire Fighting Measures

**General Information:** As in any fire, wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear. Vapors may form an explosive mixture with air. Use water spray to keep fire-exposed containers cool. Contact with metals may evolve flammable hydrogen gas. Containers may explode when heated. Approach fire from upwind to avoid hazardous vapors and toxic decomposition products. Forms explosion sensitive compounds with some metals such as lead and copper. Form hydrazoic acid vapor in contact with acid or water. Hydrazoic acid vapor is highly toxic and a dangerous explosive. Hydrazoic acid is shock sensitive.

**Extinguishing Media:** Do NOT get water inside containers. For small fires, use dry chemical, carbon dioxide, or water spray. For large fires, use dry chemical, carbon dioxide, alcohol-resistant foam, or water spray.

Flash Point: Not applicable.

Autoignition Temperature: Not available.

Explosion Limits, Lower: Not available.

Upper: Not available.

**NFPA Rating:** (estimated) Health: 3; Flammability: 1; Instability: 2

Section 6 - Accidental Release Measures

**General Information:** Use proper personal protective equipment as indicated in Section 8.

**Spills/Leaks:** Vacuum or sweep up material and place into a suitable disposal container. Clean up spills immediately, observing precautions in the Protective Equipment section. Avoid generating dusty conditions. Remove all sources of ignition. Provide ventilation. Do not flush down the drain. Over a period of time, sodium azide may react with copper, lead, brass, or solder in plumbing systems to form an accumulation of the highly explosive compounds of lead azide and copper azide.

Section 7 - Handling and Storage

**Handling:** Wash thoroughly after handling. Remove contaminated clothing and wash before reuse. Minimize dust generation and accumulation. Do not get in eyes, on skin, or on clothing. Keep container tightly closed. Do not ingest or inhale. Use only with adequate ventilation. Do not use with metal spatula or other metal items.

**Storage:** Keep away from sources of ignition. Store in a cool, dry, well-ventilated area away from incompatible substances. Keep away from water. Keep away from acids. Do not store in metal containers. Keep containers tightly closed. Some have recommended storage in an explosion-proof refrigerator.
Section 8 - Exposure Controls, Personal Protection

Engineering Controls: Use process enclosure, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower.

OSHA Vacated PELs: Sodium azide: No OSHA Vacated PELs are listed for this chemical. Water: No OSHA Vacated PELs are listed for this chemical. Hydrazoic acid: No OSHA Vacated PELs are listed for this chemical.

Personal Protective Equipment

Eyes: Wear appropriate protective eyeglasses or chemical safety goggles as described by OSHA's eye and face protection regulations in 29 CFR 1910.133 or European Standard EN166.

Skin: Wear appropriate protective gloves to prevent skin exposure.

Clothing: Wear appropriate protective clothing to prevent skin exposure.

Respirators: Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Always use a NIOSH or European Standard EN 149 approved respirator when necessary.

Section 9 - Physical and Chemical Properties

Physical State: Crystals

Appearance: colorless to white

Odor: odorless

pH: Not available.

Vapor Pressure: Negligible.

Vapor Density: 2.2

Evaporation Rate: negligible

Viscosity: Not applicable.

Boiling Point: Not applicable.

Freezing/Melting Point: 527 deg F (dec)

Decomposition Temperature: 527 deg F

Solubility: Soluble.

Specific Gravity/Density: 1.85

Molecular Formula: N3Na

Molecular Weight: 65.01

Section 10 - Stability and Reactivity

Chemical Stability: Stable. However, may decompose if heated. May be shock-sensitive.

Conditions to Avoid: Mechanical shock, light, contact with water, temperatures above 275—C.

Incompatibilities with Other Materials: Oxidizing agents, acids, some metals.

Hazardous Decomposition Products: Nitrogen oxides, sodium oxide, hydrazoic acid.

Hazardous Polymerization: Has not been reported.
Section 11 - Toxicological Information

RTECS#:  
CAS# 26628-22-8: VY8050000  
CAS# 7732-18-5: ZC0110000  
CAS# 7782-79-8: MW2800000  
LD50/LC50:  
CAS# 26628-22-8:  
Inhalation, mouse: LC50 = 32400 ug/m3;  
Inhalation, rat: LC50 = 37 mg/m3;  
Oral, mouse: LD50 = 27 mg/kg;  
Oral, rat: LD50 = 27 mg/kg;  
Skin, rabbit: LD50 = 20 mg/kg;  
Skin, rat: LD50 = 50 mg/kg;  
CAS# 7732-18-5:  
Oral, rat: LD50 = >90 mL/kg;  
CAS# 7782-79-8:  
Inhalation, mouse: LC50 = 34 mg/m3;  
Oral, rat: LD50 = 33 mg/kg;  
Carcinogenicity:  
CAS# 26628-22-8:  
ACGIH: A4 - Not Classifiable as a Human Carcinogen (as sodium azide and hydrozoic acid)  
CAS# 7732-18-5: Not listed by ACGIH, IARC, NIOSH, NTP, or OSHA.  
CAS# 7782-79-8: Not listed by ACGIH, IARC, NIOSH, NTP, or OSHA.  
Epidemiology: No information available.  
Teratogenicity: No information available.  
Reproductive Effects: No information available.  
Neurotoxicity: See actual entry in RTECS for complete information.  
Mutagenicity: See actual entry in RTECS for complete information.  
Other Studies: See actual entry in RTECS for complete information.  

Section 12 - Ecological Information

Ecotoxicity: Fish: Rainbow trout: LC50 = 0.8-1.6 mg/L; 96 Hr.; 13 degrees C  
Bluegill/Sunfish: LC50 = 0.7-0.8 mg/L; 96 Hr.; 18 degrees C  
No data available.  
Environmental: Aquatic Fate: Photolysis of sodium azide may result in metal nitrides initially, with the eventual formation of the free metal and nitrogen gas.  
Physical: No information available.  
Other: Harmful to aquatic life in very low concentrations.  

Section 13 - Disposal Considerations

Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. US EPA guidelines for the classification determination are listed in 40 CFR Parts 261.3.  
Additionally, waste generators must consult state and local hazardous waste regulations to ensure complete and accurate classification.  
RCRA P-Series: CAS# 26628-22-8: waste number P105.  
RCRA U-Series: None listed.

Section 15 - Regulatory Information

US FEDERAL

TSCA
CAS# 26628-22-8 is listed on the TSCA inventory.
CAS# 7732-18-5 is listed on the TSCA inventory.
CAS# 7782-79-8 is listed on the TSCA inventory.

Health & Safety Reporting List
None of the chemicals are on the Health & Safety Reporting List.

Chemical Test Rules
None of the chemicals in this product are under a Chemical Test Rule.

Section 12b
None of the chemicals are listed under TSCA Section 12b.

TSCA Significant New Use Rule
None of the chemicals in this material have a SNUR under TSCA.

SARA

CERCLA Hazardous Substances and corresponding RQs
CAS# 26628-22-8: 1000 lb final RQ; 454 kg final RQ
SARA Section 302 Extremely Hazardous Substances
CAS# 26628-22-8: 500 lb TPQ (This material is a reactive solid. The TP Q does not default to 10,000 pounds for non-powder, non-molten, non-solvent form)
SARA Codes
CAS# 26628-22-8: acute, chronic, reactive.

Section 313
This material contains Sodium azide (CAS# 26628-22-8, 99%), which is subject to the reporting requirements of Section 313 of SARA Title III and 40 CFR Part 373.

Clean Air Act:
This material does not contain any hazardous air pollutants. This material does not contain any Class 1 Ozone depletors. This material does not contain any Class 2 Ozone depletors.

Clean Water Act:
None of the chemicals in this product are listed as Hazardous Substances under the CWA. None of the chemicals in this product are listed as Priority Pollutants under the CWA. None of the chemicals in this product are listed as Toxic Pollutants under the CWA.

OSHA:
None of the chemicals in this product are considered highly hazardous by OSHA.

STATE
CAS# 26628-22-8 can be found on the following state right to know lists: California, New Jersey, Pennsylvania, Minnesota, Massachusetts.
CAS# 7732-18-5 is not present on state lists from CA, PA, MN, MA, FL, or NJ.
CAS# 7782-79-8 is not present on state lists from CA, PA, MN, MA, FL, or NJ.

California No Significant Risk Level: None of the chemicals in this product are listed.

European/International Regulations
European Labeling in Accordance with EC Directives

Hazard Symbols:
T+ N

Risk Phrases:
R 28 Very toxic if swallowed.
R 32 Contact with acids liberates very toxic gas.
R 50/53 Very toxic to aquatic organisms; may cause long-term adverse effects in the aquatic environment.
Safety Phrases:
S 45 In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).
S 60 This material and/or its container must be disposed of as hazardous waste.
S 28A After contact with skin, wash immediately with plenty of water.
S 61 Avoid release to the environment. Refer to special instructions/Safety data sheets.

WGK (Water Danger/Protection)
CAS# 26628-22-8: 2
CAS# 7732-18-5: No information available.
CAS# 7782-79-8: No information available.

Canada - DSL/NDSL
CAS# 26628-22-8 is listed on Canada's DSL List.
CAS# 7732-18-5 is listed on Canada’s DSL List.
CAS# 7782-79-8 is listed on Canada’s NDSL List.

Canada - WHMIS
This product has a WHMIS classification of D1A, D2B.

Canadian Ingredient Disclosure List
CAS# 26628-22-8 is listed on the Canadian Ingredient Disclosure List.
CAS# 7782-79-8 is listed on the Canadian Ingredient Disclosure List.
